

QUDSIA EHSAN

FRONT-END DEVELOPER

Lahore, Pakistan Phone[0302-4273076]

PROFESSIONAL SUMMARY

BS Information Technology student and aspiring Front-End Developer with hands-on practice in HTML, CSS, JavaScript and React.

Experienced in building responsive web interfaces and practical projects including e-commerce, food, bookstore and weather

applications. Familiar with React state management, routing, REST API integration, localStorage, Git/GitHub and modern frontend

workflows. Seeking an internship to gain real-world software development experience and contribute to production projects.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, Responsive Web Design

React: Components, Props, State, Context API, Reducer, Hooks, Custom Hooks, React Router, Fetch API

JavaScript: DOM, Arrays, Objects, Classes, Inheritance, map/filter/reduce, Async/Await, Promises, localStorage

Tools: Git, GitHub, VS Code, npm, Vite

PROJECTS

E-Commerce Store — Built a responsive shopping application with product listing, categories, cart management, quantity updates, delete functionality, checkout flow and localStorage-based cart persistence.

Foodie Shop — Designed and developed a responsive food ordering/shop interface with product presentation, navigation, styling and user-friendly layouts.

Book Store — Created a responsive bookstore website with clean UI, book listings, navigation and modern styling focused on a simple user experience.

Weather App — Created a weather application using an external weather API, asynchronous JavaScript/fetch and responsive UI design.
